Subject: Deliberative - Revised Draft HRS Doc Record for Highway 100 and County Rd 3
Attachments: 1804-206_Highway 100 and County Road 3 Groundwater Plume_HRS Documentation Record_RV1_07-19-19.pdf; Public discussions re NPL listings.PDF; Listing site definition w highlights.pdf; Evaluating GW Plumes under HRS.pdf

Tom,

Thank you for organizing the meetings and tours this week, we thought it was a productive day and a half. A few follow up items:

Attached is the revised draft HRS Doc Record for Highway 100 and CR 3 which was previously posted to Sharepoint. Please note that this is a deliberative document and should not be publicly released.

Also attached is a directive regarding the limitations of public discussions in regards to NPL listings. It's dated and there are currently more expectations for outreach, but this document explains why we need to avoid discussion of our deliberative process with outside parties, and some of the complications and limitations.

Two other memos are attached which relate to our discussions, describing the definition of a NPL site at listing, and another regarding plume sites specifically.

I will forward some info regarding property valuation I sent previously to Walker, but that material may not be very helpful for a FAQ.

As mentioned during our visit, I will be on vacation next week and unavailable by phone. Please contact Erica and Denise with any questions while I am out of the office.

Best,
 Pat

Subject: Revised Draft HRS Doc Record for Highway 100 and County Rd 3

Crague, Dave and Jen,

I've posted the revised draft HRS Doc Record for the Highway 100 and County Rd 3 Groundwater Plume site on the Sharepoint site, in a subfolder of St Louis Park Solvent Plume labeled "Draft HRS Doc Record July 2019". This document should be treated as a deliberative draft and not publicly released. Jen and Dave, thank you for all the support you've provided our contractor TetraTech during preparation of the revised draft.

The Doc Record includes a reference list, but I did not post the references. Please let me know if you would like to review any of them.

Have the revisions to the ESI Table 1 been made and the HD consulted regarding publication of the well locations?

I am trying to confirm with HQ how late we can receive MN's concurrence letter on NPL proposal and remain on schedule. For reference, the concurrence letter previously sent for Spring Park is attached (note that our RA has since changed).

Please let me know if you have any questions,

Pat
